NAVY HELICOPTER AIDS IN APPALACHIAN TRAIL RESCUE

A helicopter and four-man crew from the Brunswick Naval Air Station and District Game Warden Gayland Brackett of Bethel were instrumental in rescuing Steven Douglas, 15, of Scarborough, from a portion of the Appalachian Trail on Old Spec Mountain in Grafton Notch last Sunday afternoon after he suffered a knee injury.

According to reports, Douglas's companions made their way to the Appalachian Mountain Club, where the Warden Service was notified by radio. A helicopter from the Naval Air Station was called out after picking up Warden Brackett at the Bethel Airport to act as a guide in the area of the mishap. Located in the area of the mishap, Douglas was transported to the Maine Osteopathic Hospital in Portland, where he was treated and later released.

Warden Brackett said that a normal rescue time for the area would have been about six hours, and that utilization of the Navy helicopter cut that time in half.

Mollyockett Day 1982

PLANS MOVING RIGHT ALONG

The Bethel Lions Club's plans for Mollyockett Day, Saturday, July 17, 1982, are moving right along, and word from its chairman, Howard T. Donahue, is that only a few loose ends remain to put the final touch to the day's festivities.

A few reminders for this year: anyone interested in having a booth on the Common should contact Eldon Greenleaf; this year's theme, "Mollyockett Folklore"; persons, groups and businesses interested in participating and entering a float should contact Earl Merrill of Bryant Pond (if an idea is needed for a float, contact the Moses Mason House); all area children interested in participating in the bicycle race should contact Byron Lapham, registration for the races will be in front of the Casco Bank from 8:30 to 9:00, Saturday morning, July 17. Trophies will be awarded on the Common at the Lions' Booth.

There is still time for the young ladies of the area to submit their name and short essay to Eldon Hathaway in Bryant Pond to be chosen for this year's Princess Mollyockett. A \$50 U. S. Savings Bond is also awarded to the lucky young lady.

If more information is needed, do not hesitate to contact any member of the Bethel Lions Club. To round off this year's festivities,

P.U.C. FOLLOWS REPORT OF HEARING EXAMINER FOR DECISION IN PHONE CASE

In a decision rendered at Augusta last Friday afternoon, June 25, the Maine Public Utilities Commission paved the way for the installation of dial telephone equipment in the area served by the Bryant Pond Telephone Company, as they adopted a report of a hearing examiner by a two to one vote. A report by P.U.C. Hearing Examiner Jane S. Bradley, released a week earlier had stated that the desire of the phone company to modernize its hand-crank, magneto equipment "constitutes a reasonable need."

Ever since acquisition by Oxford Telegraph and Telephone Company a year ago, the Bryant Pond company has been a subject of national interest as the "Don't Yank the Crank Committee" seeking preservation of the last system of its type in the nation, mounted a campaign to prevent the installation of dial phones in the Bryant Pond area.

a first for Mollyockett Day, an "Old Fashion Fiddler Contest." So come one and all, and enjoy the festivities.

3rd ANNUAL ANDROSCOGGIN RIVER CANOE RACE SET FOR SUNDAY, JULY 11

The third Annual Androscoggin River Canoe Race will be held on Sunday, July 11. It was moved from late May to this date in the hope that many paddlers from Maine and nearby states would come to prepare for the A.C.A. White Water National Championships. These will be taking place on the Lower Dead River in the West Forks, Maine, July 28, 29, 30, and 31. Also it was hoped that more local people would have their canoe out and compete in the race.

There are two things that should be of particular interest to local people. An East Bethel team of Charles and Chuck Haines are top competitors in the Junior-Senior class and should do well in both this race and the nationals. Also there is a recreational class for beginners. Any paddler with a will to win and a little practice should do well in this class since all experienced racers are put in different classes. Stan Fox has donated a special trophy for this class. The trophy is kept in his barber shop and each year's winner's names are put on it. Kenny Mason and Quentin Tyler won this last year. A good turn out in this class would be great for both the competitors and people watching them.

The other nine classes are: Experienced Recreational, Singles, Women, Junior-Senior, Short, Masters, Mixed, Medium, and Kayak. The July 11 race is scheduled to start at 11 a. m. at the Twin Oaks Camping Area and finish sometime later at the Madison Motel in Rumford. It is a real fun paddle with beautiful scenery. A river full of canoes will make it interesting for all racers and competitors. For further information, contact Tim Carter, Bethel, 824-2230, 824-2503.

Due to the lack of mail service on Monday, July 5, because of the observance of Independence Day, The Citizen requests ALL contributors to submit material for the July 8 edition as early as possible.

Voters Say "No" to Purchase of Grader at Special Town Meeting
Almost 200 citizens at the Special Town Meeting Tuesday evening voted overwhelmingly to raise no funds to purchase a replacement road grader and, by implication, to maintain the status quo until such time as the existing 24-year-old machine becomes inoperable. Questions and comments centered around an inability of taxpayers to accept a 2.5 mill increase if the recommendation for a new grader had been approved. There was, however, general agreement that the Town needs a road grader capability in order to maintain the present level of service in winter and summer road programs.

The Board of Selectmen met Monday evening in the Bethel Savings Bank meeting room. In addition to reviewing preparations for Tuesday night's Special Town Meeting on the grader question, the Board acted on a variety of issues.

A public hearing was held on the renewal application from the Norseman Inn for a liquor license. No one was present to speak regarding the application and the Board approved the application. In a related action, an off premises catering application of Norm Belanger of Rumford American Legion Post #24 for an Aug. 7 and 8 party at Neil Olson's property in East Bethel was granted.

Acting on a request from Ron Gilbert, the Board voted to amend continued on Page Four

Greenwood City

Mrs. Colista Morgan, Corres.
So many mornings this season I have heard the thrush and the call, "Teacher, Teacher" of the Oven-bird, repeated over so many times. I turned over in my bed and said "Oh no, not this early, Teacher wants to sleep."

Recently as I boated Sanborn River "Teacher-bird" was there in the forest. He prefers leafy hardwoods with a smattering of hemlocks and white pines. So many times I have heard him over the woods and that many times I have wished to find his nest. I have scanned trails and roadsides for the nest is built "oven-like"; constructed of grasses, stems, leaves, mosses, and bark on the ground. It is sheltered by a dome of dry leaves and so well camouflaged that people rarely find it unless they follow the bird. The bird itself reminds me of the Hermit Thrush; olive backed with streaked breast and an orange patch on the top of its head. It steps daintily on its little pink feet.

Along the edge of the river was a fringe of tall grasses, but some of the ground itself was cushioned with moss, and little pools lay around like jewels. When the sun shone through, the pools were flecked with blue and gold.

I stopped at a place where the river made a bend. I could scarcely see the water ahead because of the tall grasses along the banks, but I heard it softly gurgling just beyond.

There were special places of silence. I sat looking down the river listening to a rose breasted grosbeak filling the air with wild reverberating music. When it stopped, that was when the quiet descended. I sat there for a few minutes, removed from the rest of the world with a sense of complete remoteness. The pines seemed to cup and hold the silence.

Off in the distance the brush cracked. A woodpecker beat a sharp tattoo on a dead stub.

All along the curving edge of the river I noticed little mud deltas produced by the wet-weather flow of tiny brooks.

There were many painted turtles on various logs and rocks. Some slid beneath the water while others turned their heads and stayed in place.

Insects—flies and small white moths, trapped on the water struggled for a time. They turned this way and that and exhausted themselves, sometimes within a few feet of the shore.

I captured it all.

I carefully neared the mouth of the river for I thought I detected the sound of a duck. I was rewarded for a little raft of ducks floated out in the open and were caught that very moment in a single ray of light. They had not as yet noticed me so chuckled and

She has a big brother, Gabriel, who is not quite two. I have had a long haired female tiger kitten approximately six months old hanging around the house off and on for about three weeks now. If anyone owns a cat answering this description I would like you to let me know. If she is a stray I have a couple who possibly would take her in but I don't want to give away someone else's kitten. She is a very pretty and well-mannered little cat and deserves a good home if she doesn't have one already, so I would appreciate any information anyone could give me.

FROM THE TOWN OFFICE
continued from Page One

The victuals, liquor and entertainment licenses previously granted "the Pits" to permit these activities on a newly constructed patio adjacent to the licensed building. The Manager reported that in the past liquor license amendments were a matter entirely between the establishment and the State Liquor Commission who granted or denied them. However, in September 1981 the Statute was changed requiring municipal officers to act on any liquor license amendments as well as basic applications. Establishments that feel a difference might exist between the licensed premises and areas where food, alcoholic beverages and entertainment is served should request the Board of Selectmen to amend the basic license after first contacting the State Liquor Commission in Augusta to obtain an inspection and review.

In other action, the Board selected the low bid proposal of Brooks Brothers of Maine Street to haul sludge from the Bethel Waste-water Plant to designated land sites. The Board directed the Manager to conclude a contract with that firm for the 1982 season in time to permit the sludge spreading program to coincide with hay mowing and silage operations for farm animals commencing in mid July.

The Board voted to approve the Manager's plan to insulate the drafty foundation sill areas of the Cole Block. This is the first step in an energy efficiency program designed to reduce energy consumption costs borne by the taxpayers. Up to half the Town's costs for the energy efficiency improvements themselves will be recovered from a matching fund grant program. The Municipal Facilities Committee will be meeting soon to complete preparations and recommendations to the Board dealing with some of the more complex energy efficiency improvements to the Cole Block that will address the present single thickness plate glass window on the Main Street facade and ceiling insulation.

The Board of Selectmen will meet next on Monday, July 12, at 7 p.m. in the meeting room of the Bethel Savings Bank. The Radio Study Committee will be meeting at 7 p.m., Wednesday, July 7, and the Municipal Facilities Committee will be meeting at 7 p.m., Thursday, July 8, in the Town Office meeting room.

DON'T CRAM THREE WEEKS
OF DRIVING INTO TWO WEEKS
OF TIME: SAY STATE POLICE

The state police point out that some vacationers try to drive too far in too short a period of time—a serious, often fatal mistake of trying to cram three weeks of driving into two weeks time.

"There is very little fun and relaxation in making an overambitious vacation driving schedule, then trying to keep up to it when a common sense schedule allowing extra time for unavoidable delays will be much safer and will add to the rest and relaxation a vacation is supposed to bring," said Colonel Allan H. Weeks, chief of the Maine State Police.

Not only does an overambitious vacation driving schedule tend to increase the possibility of committing violations such as: improper passing, following too closely, excessive speed, failure to yield right of way and speed too fast for conditions, but also leaves motorists tired at the end of the vacation—if they are fortunate enough to get back home without a serious accident, Col. Weeks said.

The state police chief said motorists should safely check their vehicle being going on vacation. Vehicles should also be loaded so the driver can see, steer and stop. Incidentally, an overloaded vehicle means slower acceleration, greater sway on curves and longer stopping distances.

Walking With
Jesus Christ

Oh what troubles man causes! — no wonder we're having wars and weather that's unpredictable—some say it's "Mother Nature" and others say—a bit of rain. The plea of insanity rumbles the same while the United States monitors 11 overseas wars.

Truly—within the hearts of all people there rages a war—until Christ becomes Lord and Master of a person's life. Now we can discuss theology till it comes out of our ears—to speak, we can carry a Bible—even swear on it—wave flags — join societies and lodges—but no use—little chance prevails to become a child of God until we realize we're sinners in need of God's forgiveness.

The end of hostility—"the peace of God, which transcends all understanding." Phil. 4:7 — is for every living soul that has a mind to heed the Word of God. It is not enough to say—yes, I believe in Christ—to rehearse the Apostles Creed and go through all the Scriptures to gain a head knowledge because only a heart knowledge can bring one into the presence of the living God.

Two examples—The very place where Israel wars today—there—almost 2,000 years ago—Acts 8—a high official reading and not understanding Isaiah 53, asked Philip "tell me, please, who is the prophet talking about, himself, or someone else?" Then Philip began with the very passage of Scripture (verses 7 and 8)—and told him the good news of Jesus—"and the official—after believing—went on his way rejoicing."

Acts 9:—Meanwhile, Saul was still breathing out murderous threats against the Lord's people—"he roared Damascus—when suddenly a light from Heaven flashed around him. He fell to the ground and heard a voice say to him, Saul, Saul, why do you persecute me?" "Who are you, Lord?"—Saul asked—"I am Jesus, whom you are persecuting—"

Saul believed to become a changed man with the name of Paul the evangelist.

The Holy Bible is not something to fool with—it is God's Word and must be taken literally and prayerfully—accepted by faith—trusting in God's ability to change our lives into forgiven sinners. Be serious with God—ask forgiveness and ask Him to be the Lord of your life.

"May the God of hope fill you with all joy and peace as you trust in him, so that you may overflow with hope by the power of the Holy Spirit." Romans 15:13.

MAINE DRIVERS LICENSES WILL NOW HAVE PICTURES

Beginning in July, Maine will commence issuing drivers licenses with photographs. As drivers approach their license renewal deadline, Motor Vehicle offices are now equipped to take pictures and issue the new cards with an instant photo process.

Licenses will continue to be valid for four years, so the transition will continue for some years yet before everyone has the new card. Since these new cards are popular and drivers may purchase a duplicate at any time, Secretary of State Rodney Quinn expects a land-office business in the first few months.

Quinn today announced, that Maine will become the 47th State to issue permanently sealed, laminated licenses which will contain the individual's picture. Since these new cards will be good for many types of identification, the authorizing legislation which was passed early last year was widely supported by business groups, banks and store owners. The current paper Maine licenses are generally very decrepit by the end of the 4-year life span and have proven poor for identification.

The new licenses will be a single laminated card produced by a Polaroid system and are expected to retain their vigor and appearance for the full 4-year period of issue. In experiments these cards have withstood accidental laundries.

The licenses will also serve as an I. D. card for the purchase of alcoholic beverages. For people under age 20, the new licenses will contain a broad red band across the front of the license indicating that recipient is ineligible to buy liquor. These licenses are practically impossible to forge due to protective measures designed in the laminated cover as well as in the photographs themselves.

Quinn advised that the Motor Vehicle Division would also issue plain I.D. cards for people who do not have driver's licenses.

Quinn agreed that there would be some inconvenience inasmuch as drivers will have to travel to a Motor Vehicle facility to have their picture made, but he pointed out that this budget would not permit service to all communities in the State. To alleviate this inconvenience, a roving photographic team will be permanently available in at least 16 communities throughout the State for one or more days each month on a regularly scheduled basis, in addition to the ten permanent Motor Vehicle offices. The total of 26 locations guarantee that no one will have to drive more than a few minutes for a picture, in fact, Quinn says 98% of the population of Maine will be within 13 miles of some facility.

He also pointed out that drivers need to have the picture taken only once every four years, and that elderly drivers are exempted; the picture is optional for people 65 and over.

Also, to make it easier on the public, all 10 permanent Motor Vehicle offices, commencing in August, will operate at least one evening per week or on Saturday morning. Exact times will be announced later.

The fee for new licenses will be increased by \$2.00, which is intended to reimburse the cost of the cameras, processing, record keeping, etc. For duplicate licenses issued out of normal cycle, there will be an additional charge of \$2.00.

People whose licenses are routinely due for renewal after the 1st of July will be mailed a data card, plus a brochure explaining the procedure and listing the various localities and their hours of operation. At each person's convenience - any time before their old license expires - they may then take this data card to any photo unit or field office. The photograph will be taken and the new license issued immediately.

To prevent license theft or false identification, for the first visit only all applicants must bring one other form of identification, such as school records, military I.D., passport, birth certificate, social security card, etc.

Quinn agrees that the extra identification requirement will be somewhat of a nuisance, but experience in other states has shown that mail thefts and false data cards can produce false licenses.

To ensure that the Maine system remains as clean and error-free as possible, the Division of Motor Vehicles wants to ensure absolute identification in the case of a license being issued for the first

time. Subsequent licenses will not require this extra identification.

In the event anyone wants to have a new picture license before their old one routinely expires, or a plain I.D. with no drivers license they may go to any of the 10 permanent field offices. The new license or I.D. will be issued while the applicant waits - although some delay may be experienced during busy periods. Since people will not have the new data cards in possession, two other identification records will be required to assure positive identification. In the case of applicants of doubtful age for I.D.'s, still further identification may be required.

Quinn recommended a phone call before a trip, especially to the permanent Motor Vehicle offices, for crowding and long lines are expected throughout the summer.

In an effort to assure better service during the early phases of this program, the Motor Vehicle Division has hired some temporary clerks, mostly students, at all locations throughout the State, but Quinn pointed out that some bugs are bound to develop in any new system and a large number of people will want immediate duplicates - so traffic is bound to be heavy.

The Insanity Defense

The acquittal of John Hinckley by reason of insanity for the attempted assassination of President Reagan has focused the nation's attention on the uses and abuses of the insanity plea as a defense. The American people strongly favor limiting the use of the insanity plea. Last fall, an Associated Press-NBC poll revealed that 87% of the people polled felt that "too many accused murderers are using the insanity defense to keep from going to jail." At the same time, there is widespread support for both maintaining the insanity plea in some limited form and institutionalizing the criminally insane in a mental institution rather than in a state or federal penitentiary.

Congress has never enacted national legislation on the insanity defense. The defense was first adopted by each of the states. Today, the test used by most federal courts holds that a person should not be held responsible for a crime if, "as a result of mental disease or defect he lacks substantial capacity to appreciate the criminality of his conduct or to conform to the requirements of the law

In my items last week I stated that Mr. and Mrs. Wilbur Chamberlain were patients at Maine Medical Center, Portland. It should have read Central Maine Medical Center. If they had told me C. M. G., I would have put it in right. Sorry.

Is everybody having garden troubles? Lots of rain, seed not germinating and many puddles. Oh! Well!

Joe Vatcher recently bought a good strong padlock. He has two baby ducks and two beagle dogs left. The large trap was moved quite a bit one night and most of the chunk of bacon was eaten, but no animal. The birds are nibbling on the strawberries, so one just can't win. They say "blessed be nothing." I believe it.

Doris and "Roo" Lawrence and Charles Coffin went to Paramus, N. J., this week end, June 26, with Charlie's big trailer truck to get Arnold Coffin's furnishings and bring them to West Paris. The rain has been bad for many gardens. Some have had a hard time to get the seeds in the ground as their ground is so wet. It has been a hard time for farmers.

Mr. and Mrs. Ralph Tucci are at their camp on North Pond for the summer.

I called on Hazel Waltemen and Gladys McKee this week.

The Adventist Churches are holding camp meeting in Freeport. Many from this area are attending it. Some are travelling back and forth. Some are in campers, others have tents in which to reside. We hope they haven't had too much rain in that area. It has been rather messy and cold here for this time of year.

luck with his ducklings than we do with ours. It must be a large animal at our house as it moved a trap three feet long and it pawed the ground three inches deep to get out and it lost one claw or toe nail and left a lot of yellow hair. Some say a fisher cat.

Sincere sympathy is extended to the family of Mrs. Lewis (Liz) Abbott in their sorrow.

Mr. and Mrs. Joseph Kalinowski were hosts to an anniversary party held at a Berlin, N. H., restaurant, June 25. Mr. and Mrs. Carroll Record have a wedding anniversary near July 4. Mr. and Mrs. Root Lawrence have their 43rd anniversary July 1 and Mr. and Mrs. Kalinowski have their 42nd anniversary on June 29. Mr. and Mrs. Herman Card and Mr. and Mrs. Albert Penley Sr., were also members of the party.

The Community Club supper was a big success and several new people joined us, and everyone had a bountiful supper.

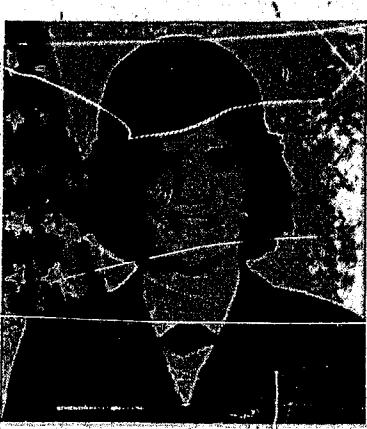

A happy July 4th holiday and week end.

SECOND WEEK OF SUMMER PLAYGROUND A BIG HIT

Time goes by when you're having fun, and that's precisely what is happening at Summer Playground this week. Monday was the big UN-birthday celebration with the making of their own vanilla ice cream. Leaders Gail Sysko and Linda Yates, brought their hand-cranked freezers and everyone was willing and more than able to turn the cranks for a thirst-quenching treat (note: it was the first hot day of the summer). You can't beat excitement of games when using a real parachute, and thanks to Marlene Myers for the loan of it, that's what they did before starting on the ice cream.

Tuesday's rain didn't stop the afternoon trip to Bethel Library. Leaders Gail Sysko and Alice Johnson each took a car load of eager readers over to check out books. A checkers tournament was held throughout the day with Mike Sylvester, Debbie Barker and Joshua Otis as round robin winners. Dramatics Leader Linda Yates had play rehearsal for the playground's upcoming production of "Jolly Green Thumb" to be held on Friday at 10:00 a.m. Everyone is welcome to attend. Art Leader Alice Johnson and Linda Yates had children completing necessary stage preparations and costumes. Stories, songs and games round out each day's activities.

Wednesday's trip to the Evans Notch Ranger Station was great excitement for all as playgrounders met with Forest Ranger Lyle Wiggin to walk the back woods to the homes of Smokey Bear and Woody Owl. Then the group had lunch and games at the Gilead picnic grounds.

Today, Thursday, planned activities include completion of preparations for the play, dress rehearsal, kickball, dodgeball and an arts and crafts project. Friday will conclude the first session of Bethel's Summer Playground. After the play, they plan to celebrate the Fourth of July with patriotic songs and games.

If you missed out on Session One, plan on attending the second session, beginning July 26 and running through Aug. 6. Watch the Citizen for publication of scheduled activities and events. Special thanks are extended to Brooks Bros. Hardware and Bethel Citizen for their contributions to a successful session one. Also, to the parents who helped by transporting children on their field trip. And thank you to Evanna Grover for taking children to the library.

SHOPLIFTING IN MAINE DECREASED BY 11.3% IN 1981

Shoplifting in Maine decreased last year by 11.3% from 3,389 reported offenses in 1980 to 3,007 in 1981.

Maine Uniform Crime Reporting (UCR) statistics show 3,007 reported shoplifting crimes resulting in \$98,881 worth of merchandise stolen during 1981. The average loss per offense was approximately \$33. However, shoplifting has increased 7%, as indicated in State UCR statistics for January through March 1982 (768 reported offenses compared to 763 for the first quarter of last year).

From 1976 through 1980, reported shoplifting offenses increased 82.7% (or by 1,534 offenses). In 1976, there were 1,855 offenses with \$65,580 stolen; in '77, there were 2,472 offenses with \$85,983 stolen; in '78 there were 2,961 offenses with \$102,770 stolen; and in 1979 there were 3,233 offenses with \$101,828 stolen.

"Shoplifting—not an easy crime to prevent—results in increased consumer prices to cover the cost of stolen merchandise and beefed-up store security, plus it costs taxpayers to prosecute and jail shoplifters," said Colonel Allan H. Weeks, chief of the Maine State Police.

According to Col. Weeks, "Shoplifting crosses every line of society (i.e., sex, age, income, etc.) and is non-discriminatory in nature, with those responsible who are prosecuted earning a criminal record that signifies they may not be trustworthy."

A nationwide breakdown on shoplifting by the FBI shows that most shoplifters are between the ages of 13 and 19, the majority of high school students do not think shoplifting is a serious offense (yet, it represents 15% of all reported larcenies nationwide and 10.9% statewide), and 70% of high school students admit to shoplifting.

What can an individual do about shoplifting? Weeks said, "Don't tolerate it. If you're in a store and see someone shoplifting, alert store personnel, but don't confront the suspect yourself."

The state police chief advises parents to tell their children that shoplifting is a crime (and not a game), conviction could prevent them from being hired in many job fields.

In addition, parents should be overly suspicious—being inquisitive as to where children may get items an allowance won't buy.

SENATOR COHEN From Washington

In the world of trade, national borders are becoming increasingly less important as prudent small businesses seek to emulate their larger counterparts by expanding their exporting capacity. In Maine where 1,750 of the state's 2,157 businesses have fewer than 50 employees, the concept of exports for small businesses is gaining favor but still faces some barriers.

Although this country's small businesses can't compete with large subsidies which other governments—like Canada—provide their businesses, the outlook for small exporters in the U.S. is improving. Today there are several resources for small businesses interested in marketing goods or services abroad, such as the U.S. Export-Import Bank, which offers a loan guarantee program to protect companies from financial loss and a toll-free hotline to call with export-related questions or problems.

The most recent service for small business exporters was announced last week by the Small Business Administration (SBA).

In an attempt to stimulate employment in the small business sector by increasing exports, the SBA has established a national revolving line of credit program, offering loans of up to \$500,000 (with 18 month terms). The money may be used for pre-export financing, such as the purchase of supplies, inventories, materials and working capital for manufacturing or wholesaling products for sale abroad. The loans also may be used for developing and penetrating foreign markets with professional marketing advice and services, foreign business travel and participation in trade shows, unlike conventional small business loans.

The program could be very beneficial for the small business community in Maine, which is just beginning to tap the vast potential that exists in foreign exports. While business exports from Maine have grown 200% over the past decade as a percentage of the state's industrial production, they still fall below the U.S. average for all states.

Here are some of the relevant facts about Maine's exports:—According to 1980 figures, \$774 million in goods produced in Maine are either direct exports, or "sup-

PURITY CHAPTER #102 TO MEET JULY 7

Purity Chapter #102, Bethel, will hold a meeting on Wednesday, July 7, 1982, at 7:30 p.m. Refreshments will be served after the meeting. There will be balloting. The officers and members of Jefferson Chapter #89, Bryant Pond, will be special guests of the evening.

porting exports," such as parts and equipment used by plants in export production.

Of the total employment in the state, 8.8% is export-related, and of the state's 116,000 employees in manufacturing industries 10.3% of them work in export production.

Paper and allied products lead the state in direct exports (with \$96.4 million exported), followed by electronic and electronic products (\$58.4 million), leather and leather products (\$55.2 million), lumber and wood products (\$30.5 million), fabricated metal products (\$29.9 million), machinery (\$24.3 million), chemical products (\$24.2 million), and food products (\$22.4 million).

Maine's biggest export market is Canada, followed by the European Common Market. Of all the Maine businesses which export products, 72% report trade with Canada.

In addition to the export services provided by the Export-Import Bank, the Small Business Administration, and the Department of Commerce, Maine's small businesses have access to a wealth of information through a state-funded computer which is located at the University of Maine campuses at Orono and Presque Isle, the State Library in Augusta, and the Portland Public Library.

A potential producer can tell the computer what he wants to sell, and the computer provides the names of markets around the world which have requested the product within the past 30 days. To date, the computer has been used by the state's business community on a very limited basis.

Clearly, there is a vast array of assistance programs available to Maine small businesses which are ready to explore foreign markets for their products. The road to successful exporting can be intimidating, frustrating and risky, as businesses face high interest rates and devalued foreign currency. But the results can be well worth the effort.

For information and assistance in exporting, contact the Small Business Administration in Augusta, 522-8382, or Department of Commerce Trade Specialist Steve Nyulasz (located at the Maine Development Foundation in Augusta), 622-8249.

Friday's topic is: "The impact of Higher Consciousness in Bringing about Change," by Don Klein of Johns Hopkins University in Baltimore. Saturday it's "Body Image," by Karen and Jim Wasserman, a psychologist/psychiatrist couple from Dayton, Ohio.

WESTERN MAINE ART GROUP HOLDS WORKSHOP IN SUNDAY RIVER AREA

Nineteen members of the Western Maine Art Group with headquarters at 265 Main Street, Norway, have been painting landscape scenes and figures from life in oil, water color acrylic and tempera during the past week in the Sunday River area.

Instructions teaching the daily classes were well-known artists, Mrs. Lee Bean of East Oxford Road, South Paris, and Professor Lajos Matolcsy of Ryerson Hill Road, South Paris. Daily instructions included the techniques of composition, color intensity, hue and brush movement. Members of the group came from as far away as Portland, Auburn, Lewiston, Greene and Newbury.

This is the Group's tenth year of holding this type of workshop. Previous locations included Peaks and Swans Island off the coast of Maine.

Romeo Baker, who himself is a member of the Group, was the host for this year's workshop.

WOODSTOCK HISTORICAL SOC. TO STUDY ISRAEL

The next meeting of the Woodstock Historical Society will feature a presentation by Jack Auchmoody of "Israel: Jesus and the Prophets." The talk will be accompanied by colored slides. The Society is also presently making plans for printing stationery. Arlene MacKilgity has procured a picture of the old stage and Joyce Hathaway, of the Library. These will be featured on the paper. The Society hopes to realize needed profits from selling these materials.

Remember that the museum is open on Saturday early in the afternoon. A temporary exhibit of prints has been added to the regular offerings.
